PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Power BI, Python, Excel, and Tableau, supported by a background in pharmacy and public-health operations. Skilled in data cleaning, exploratory analysis, KPI development, data visualization, data modeling, customer analytics, profitability analysis, and business reporting. Strong analytical thinking, problem-solving, structured reporting, stakeholder communication, and ability to translate business questions into data-driven insights.

TECHNICAL SKILLS

Data Analysis: SQL, Python, Pandas, Excel (Pivot Tables, VLOOKUP/XLOOKUP, Power Pivot), Data Cleaning, Exploratory Data Analysis, KPI Analysis

Business Intelligence: Power BI, DAX, Power Query, Data Modeling, Star Schema Design, Dashboard Development, Data Visualization

SQL & Analytics: SQL Server, CTEs, Subqueries, JOINS, CASE WHEN, Window Functions, Ranking, Running Totals, Moving Averages

Business Analytics: Sales Analysis, Customer Analytics, RFM-based Customer Segmentation, Cohort Analysis, Profitability Analysis, HR Analytics, Trend Analysis

Professional Skills: Analytical Thinking, Problem Solving, Structured Reporting, Stakeholder Communication, Attention to Detail, Business Acumen, Decision-Making

Core Tools: Power BI, SQL Server, Excel, Python, Tableau, Git, GitHub

SELECTED PROJECTS

Retail Analytics | SQL + Python + Power BI

- Built an end-to-end retail analytics project using synthetic electronics-retail data covering 20,000+ orders, 5,000 customers, and 200 products.
- Developed SQL business reports covering executive KPIs including revenue, profit, orders, customers, and average order value, along with sales, profitability, customer, and cohort analysis.
- Applied CTEs, subqueries, window functions, ranking, running totals, moving averages, and cohort calculations to answer business questions.
- Designed a 4-page interactive Power BI dashboard (Executive Overview, Sales Analysis, Customer Analysis, Customer Segmentation) analyzing \$164.99M in revenue across 20K orders, with a dedicated date dimension and custom DAX measures.
- Identified \$262.56K in losses from negative-margin products by flagging the 10 lowest-profitability SKUs, enabling data-driven pricing decisions.
- Applied RFM-based customer segmentation to 5,000 customers across 5 tiers, revealing that Champions + Loyal Customers (49% of the base) generated 72% of total revenue while identifying 12 customers with net losses.
- Uncovered a 92% customer repeat rate and calculated per-customer value metrics (average \$33.6K revenue and 4.07 orders) to support retention and profitability strategy.

Technova HR Analytics | Power BI + Python

- Built an interactive HR analytics dashboard analyzing 1,000 employees across 10 departments and 5 locations, uncovering a 17% overall attrition rate.
- Pinpointed HR and Operations as the highest-attrition departments (22% each) and identified Better Opportunity and Salary Issues as the top two exit reasons (36 and 31 cases respectively).
- Analyzed compensation across job levels, revealing average base salaries ranging from \$5K at Entry Level to \$30K at Manager, alongside a 7% average increment rate and 78.84 average KPI score.
- Developed management-focused visualizations to identify workforce trends and communicate actionable retention insights.

ANALYTICS & PROFESSIONAL EXPERIENCE

Data Analytics Intern | Mazen Analytics | 2026

- Completed practical exposure to data analytics workflows, data interpretation, and analytical problem-solving.
- Applied data analysis concepts in a professional analytics environment.

Head of Surveillance Department | Dakahlia Governorate Health Directorate | 2019 – 2025

- Led surveillance and reporting activities involving operational health data and structured reporting processes.
- Reviewed and monitored reported data, supporting evidence-based operational decision-making and timely reporting.
- Coordinated reporting activities and communicated findings with relevant stakeholders.

Medical Representative | Al-Dawaa Pharmacies | 2009 – 2017

- Managed professional relationships with healthcare stakeholders in a target-driven environment.
- Monitored sales and operational information to support territory performance and business activities.
- Developed communication, reporting, territory management, and problem-solving skills through field-based commercial work.

EDUCATION

Bachelor of Pharmacy | Faculty of Pharmacy | 2008
